MARCS Steering Committee set for Jan. 24

The Ohio Multi-Agency Radio Communications System (MARCS) Steering Committee will meet from 1 to 3 p.m. Tuesday, Jan. 24 at the Vern Riffe Center, 77 S. High St., Columbus, in Room 1960.

Agenda items include a discussion about the proposed design of the next generation of MARCS as well as the proposed capital bill funding request for the proposed new system.

MARCS is the State of Ohio's comprehensive wireless communication system for police, fire, emergency medical services and other public safety forces. MARCS provides wireless voice and mobile data for state agencies, including the Ohio departments of Natural Resources, Public Safety, and Rehabilitation and Correction. MARCS also provides wireless voice radio service for nearly 1,300 county, township, federal and private first-responders.

MARCS is administered by the Ohio Department of Administrative Services.
