## Project Overview

### A. Project Description

The State Architect's Office (SAO) intends to pre-qualify firms to provide engineering and surveying services for projects that are not advertised through the Ohio Register. In order for any firm on the FY10-FY11 list to be considered in the pre-qualification process for future projects, they must reapply.

This pre-qualification process will determine the list of firms that will be eligible for award of contracts for the period beginning July 1, 2011 and ending June 30, 2013. The current Consultant List expires on June 30, 2011.

Services are in support of the SAO design and management of projects, as well as to support state agency administration of projects. Consultants are generally utilized for small projects or specialized tasks in which the usual Ohio Register selection process would be cumbersome. All firms submitting a proposal in response to this RFQ will be eligible for consulting services opportunities.

Upon completion of the selection process, SAO will seek Controlling Board approval for total contract awards to each pre-qualified firm up to the amount of \$250,000 for the two-year period. Fees for each individual assignment will usually range in the amount of \$25,000 - \$75,000 per project. However, there may be exceptions where fees for an individual assignment will exceed \$75,000.

The number of pre-qualified engineering and surveying consultants selected through this process is within the discretion of SAO. While pre-qualified status means that a firm is eligible for award of contracts, SAO does not guarantee that a firm will be awarded any work or make a representation of the amount of work a firm may receive within the two-year period.

### B. Scope of Services

Work assignments may include: engineering (any engineering discipline) and surveying, and related specialty consulting services including but not limited to facility evaluation and master planning services; review or creation of a Program of Requirements; various studies; prototype building design; preparation of bidding and construction documents; pre-design investigations; quality assurance testing during construction; validation of existing site conditions; preparation of cost estimates; extensive pre-design investigations; code-required special inspection and testing; quality assurance testing during construction, surveying services; soil testing and engineering.

Energy and commissioning services will be included in an upcoming Request for Qualifications specifically directed to all energy and commissioning consulting firms.

Services will be provided in accordance with a standard form of consultant agreement. As a project is identified for engineering and surveying services, SAO will notify a pre-qualified firm or firms of the project and provide a scope of work. Only the firm selected for an assignment will be requested to provide a fee proposal. The scope of work and schedule for a specific project will be described in an exhibit document attached to the agreement.

SAO will initiate contract negotiations directed toward:

- (1) Ensuring that the firm and the agency have a mutual understanding of the essential requirements involved in providing the required services;
- (2) Determining that the firm will make available the necessary personnel, equipment, and facilities to perform the services within the required time; and
- (3) Agreeing upon fair and reasonable compensation, taking into account the estimated value, scope, complexity, and nature of the services.

Upon failure to negotiate a contract with an identified pre-qualified firm, SAO will inform the firm in writing of the termination of negotiations and enter into negotiations with another firm on the pre-qualified list.

### C. Funding / Estimated Budget

Announce Short List for Interviews: February 2011

Interviews in Columbus: February/March 2011

Pre-Qualification will be effective for the period covering July 1, 2011 – June 30, 2013

## H. Submittal Instructions

Firms are required to submit a current SAO-F110-330 Statement of Qualifications (blank forms are available as a free download from the SAO website). A CD-ROM with all pages consolidated into a single PDF file must be submitted enclosed in an envelope, sealed, addressed, and mailed or delivered to the State Architect's Office, Attn: Program Services, 4200 Surface Road, Columbus, Ohio 43228-1395. Label the CD-ROM with the project number listed on the RFQ and your firm's name.

Paper copies or submittals that are e-mailed or faxed will NOT be accepted.

Electronic submittals must be combined into one PDF file named with the project number listed on the RFQ and your firm's name. Use the "print" feature of Adobe Acrobat Professional or similar software for creating a PDF rather than using a scanner. If possible, please reduce the file size of the PDF. In Adobe Acrobat Professional, go to Advanced, then PDF Optimizer.

The following special instructions apply to completing the SAO-F110-330 form for this selection:

- Firms are requested to list the Project No. (indicated on Page 1 of this RFQ) on the first page of Part I and on Part II of the SAO-F110-330.
- Firms are requested to indicate their EDGE-certified business status as either "Certified" or Non-certified" on Part I Section C (Proposed Team).
- Firms performing current Consultant List projects should identify those projects on Page 1 of Section F (Example Projects Which Best Illustrate Proposed Firm's Qualifications for this Contract).
- Do not submit Page 2 of Section F (Relevant Projects Experience Matrix).
- Do not submit **Page 2 Page 3** of Section H (Commitment to Participate in the EDGE Business Assistance Program).
- Firms are requested to identify their experience, preparedness, software, and training relevant to their use of building information modeling (BIM) authoring and analysis tools. This information is being collected for statistical purposes and will not be used as criteria for scoring submissions. Provide in narrative form in Section H of the
